Uniforms Of The Third Reich: A Study In Photographs (Schiffer Military History)

Synopsis

This new book takes a close look at a variety of authentic World War II era German uniforms including examples from the Army, Luftwaffe, Kriegsmarine, Waffen-SS, Allgemeine-SS, Hitler Youth and Political Leaders. The pieces are shown in large full frame front and rear shots, and in painstaking detail to show tailors tags, buttons, insignia detail etc. and allow the reader to see what the genuine article looks like. Various accoutrements worn with the uniforms are also included to aid the collector.

Customer Reviews

Based on the write-up for this book, I assumed that it would have photographs of various WW2-era uniforms that would help a collector know what to look for when it came to authentic/original items. Well if you can afford to buy or could actually find uniforms that belonged to Erwin Rommel or some Navy Admiral or a Knight's Cross winner, this is the book for you. If you collect uniforms for historical purposes for the average foot soldier of any of the services, this isn't the book for you. There were numerous photos of uniforms for Generals, high-ranking officers, and some ultra rare SS uniforms. However, there were very, very, few photographs of common uniforms that would belong to anyone below an officer rank. The Navy section had 7 different reefer jackets pictured, but not a single enlisted uniform was pictured. How many reefer jackets do you need to see? There were no standard enlisted army wool tunics pictured. This book basically is a visual display of some of the very best pieces from some great collections. However, it's use as a reference source for

collecting purposes is very limited. I was very disappointed....

This book did not disappoint. The uniforms are often full page, clear, and are wonderfully photographed. A big and somewhat chilling surprise was one of Hitler's 1935 NSDAP party shirts, complete with belt, strap, and medals; found by US soldiers in his Munich apartment. My only complaint was that there were no uniforms complete with matching pants and boots. Having one of Hitler's garments included also begged the question if there are other uniforms of top officials still in existence such as Goering, Himmler, or other Reich or Field Marshalls. The book gives little reference or hint of the extent of such historical items existing either in private hands or museums.

If what you want is quality photos of the uniforms, this book won't disappoint you. The photos are great, except the book has no image of boot. But if you are looking for detail information and history of the uniforms, this book may not be what you want. Anyway, just looking at the photos worth buying it, personally speaking
