Mother of two homeschooling little girls that are mildly (totally) obsessed with Minecraft EVERYTHING. We tend to do more of a child-led learning style in our home, and when they are obsessed with Minecraft I had to get creative. I was able to gift my girls a few of these Minecraft books and they love them. I was having a hard time finding something more challenging than the beginner books, yet without the super complex, tiny stuff meant for kids with very mature fine motor skills which is frustrating, but I am thinking I will ban electronics in the car some day soon and they will take these along. I am happy with the purchases, I am happy with the price! Much better than other author's on .
