Hell Hawks!: The Untold Story Of The American Fliers Who Savaged Hitler's Wehrmacht

Synopsis

Hell Hawks sets a new standard for histories of the tactical anti-war in Europe. Veteran authors Bob Dorr and Tom Jones combine masterfully crafted veteran interviews with the broader picture of the air war fought by the Thunderbolt men. You gain a new appreciation of just how tough their deadly task was, and the courage needed to fly close air support against the Nazi fighters and flak. This outstanding book raises the bar on aviation history as it brings alive the true story of an aerial band of brothers." - Colonel Walter J. Boyne, National Aviation Hall of Famer, former director of the National Air & Space Museum, and best-selling author

Â Hell Hawks! is the story of the band of young American fighter pilots, and their gritty, close-quarters fight against Hitler's vaunted military. The "Hell Hawks" were the men and machines of the 365th Fighter Group. Beginning just prior to D-Day, June 6, 1944, the group's young pilots (most were barely twenty years old and fresh from flight training in the United States) flew in close support of Eisenhower's ground forces as they advanced across France and into Germany. They flew the rugged, heavily armed P-47 Thunderbolt, aka the Jug. Living in tents amid the cold mud of their front-line airfields, the 365th's daily routine had much in common with that of the G.I.s they supported. Their war only stopped with the Nazi surrender on May 8, 1945. During their year in combat, the Hell Hawks paid a heavy price to win the victory. Sixty-nine pilots and airmen died in the fight across the continent. The Group's 1,241 combat missions -- the daily confrontation of sudden, violent death -- forged bonds between these men that remain strong sixty years later. This book will tell their story, the story of the Hell Hawks.

The P-47 fighter-bomber story and all that surrounds it -- the plane and the men that it served -- are brought to life in Robert F. Dorr and Thomas D. Jones's new book, "Hell Hawks!" Mr. Jones, a veteran astronaut, B-52D pilot, on Kindle see his Marine Air: The History of the Flying Leathernecks in Words and Photos, and Mr. Dorr, a former senior diplomat, are veteran authors in the field of aviation history and space exploration. In this book, they give us drama and emotion, a powerful sense of history combined with illuminating action. Dorr and Jones's well-told story belies the cliché about Flying Fortresses and Mustangs winning the war: Their narrative is absorbing and enjoyable to read. Introducing the voices of numerous pilots, ground crewmen, and enemies, Dorr and Jones blend a trove of original interviews to create an air men's history of the 365th Fighter Group and the vast destruction it wrought. Chronicling the Thunderbolt's interdiction war makes for an exciting narrative. It brings new light to the historical importance of ground attacks by fighter-bombers that wielded great devastation on German military forces. The term for fighter-bombers -- or what authors Dorr and Jones, using the German's own coinage, have called "Jabos" -- are tactical ground attack aircraft such as the Soviet Ilyushin Il-2 Sturmovik, RAF Hawker Typhoon, and the USAAF Republic P-47 Thunderbolt.
