Customer Reviews

Love this book. My husband is Spanish and he reads English, but having the instructions in his native language save time and confusion. We both love it. I have in English and Spanish and we use both! Love it, it came in wonderful condition and fast.

This was a gift to a friend. He loves it and it has been helpful with his understanding of household repair. Very good.

A very useful book, The only place when i found the book was on . Delivery on time. The price was even a little cheap (total amount: book price + post delivery) that the same item in my own country (out of stock by the way). Great and completely happy.

I've learned a lot with this book and i recommend it for those little repairs at home.=Aprend  mucho con este libro, lo recomiendo para esas peque as reparaciones en casa.

This item was purchased to be a check out item at a library. My Spanish speaking/reading patrons really appreciated it. It was checked out frequently.

This book is 14 years old and some kid used it as a coloring book. Not worth the price. My wife bought this book for the same price in english brand new at the store. The seller lied in their description. Este libro tiene 14 años de antigüedad y algún niño lo uso como libro de colorear. Y no vale el precio que pague por el. Mi esposa compro el mismo libro por el mismo precio y ese está actualizado y nuevo de paquete de la tienda Home Depot.
