Customer Reviews

This is a great book. It has the Spanish version on one page, and the English is on the next page, so it is easy to compare. Other English hymnals that have been translated are not true translations,

The music has very small print, but is readable. However, the biggest problem that I had was that in every song that has a flat key the chords are wrong in both the musical alphabet and in solfege. Probably something the editor should have looked at more closely.

Arrived on time, very pleased. Was in good condition and was exactly as described by the seller. I would recommend this hymnal for anyone who is bilingual or is learning to be bilingual

Print is small, however this makes it the overall size small and easy to carry.
